

An appeal to “unlock dialogue”

Aware of the growing number of armed conflicts that are taking place in many parts of the world and particularly concerned about the dramatic escalation and spreading of violent clashes in the Middle East region, we unite ourselves with all those who are actually experiencing these tragedies and strongly appeal for the need to **unlock dialogue** as a path to peace.

We strongly believe that no peace can be achieved through the use of weapons, and we are convinced that negotiations and dialogue, where all parts accept equality in dignity, lead to a just and lasting peace. For this reason, we urge particularly leaders and all parties in conflict to stop using violent means, which only serve to produce more violence.

As for us, we take a more conscious personal commitment to live dialogue wherever we are, in every part of the world, to solve the large or small conflicts we encounter in our everyday lives. We ask all women and men in the world to follow this path to be promoters of dialogue in their daily lives.

As a concrete gesture, we invite you to join us to provide some of the prompt aid needed in so many urgent situations that involve people whose fate depends also on our solidarity.
