

# Let's help others

«Encourage one another and build up one another» (1Th 5:11)

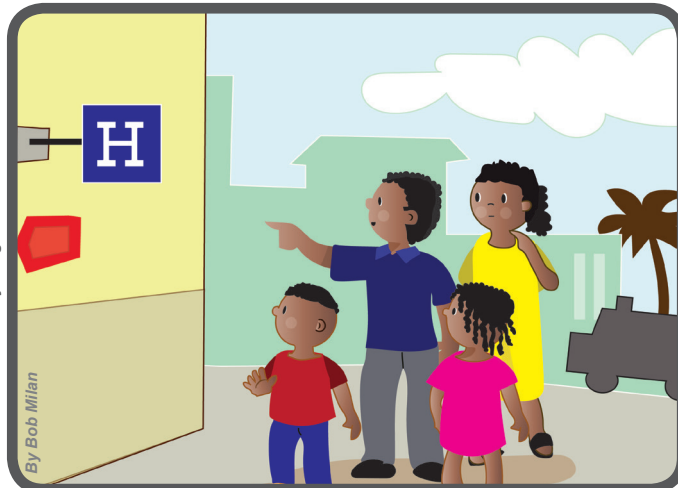

St. Paul told many people about Jesus, including the people who lived in Thessalonica. He wrote to them telling them to comfort one another and support anyone who was having a hard time.

They tried to do it, especially when they saw that someone needed help.

They stay close to them and support them with love and patience.

The Gen 4 in Tanzania heard that many of the sick people in the hospital didn't have soap to wash themselves.

And so one Sunday, together with the adults, they sang for the Mass and asked for donations to help these sick people.

Then they bought the soap and took it to the hospital.
