

Unique opportunity - GEN ROSSO IN CONCERT (Online)

On December 28, 2024, Gen Rosso held a concert event to celebrate the 60th anniversary of Loppiano, the first "Little Town" of the Focolare Movement that for many represents a beacon of community and hope. Weeks later, the echoes of that concert continue to linger in the air, generating emotions in the hearts of those who were there and inspiring even those who could not attend. It was more than a simple performance: it was a musical testimony of what it means to be part of a community, of a shared dream. For this reason, Gen Rosso decided to offer everyone, even those who could not be physically present, the opportunity to experience and relive the concert in its entirety on <https://genrosso.publica.la> on 7th March at 8:00 p.m. (Irish time) A journey through history with 28 songs chosen from new singles and rearranged historical pieces from Gen Rosso's great repertoire.

Purchase your ticket by choosing any of the amounts indicated. With this donation you will help support the various activities Gen Rosso carry out around the world through music.
