

Experience of Mattia Signori, as presented through the website www.chiaraluce.org

Thank you Chiara!!

I am a 26-year old youth and my name is Mattia, and in a few days time I will enter the hospital for brain surgery due to a relapse. Last Sunday during confession, I was advised to read "I have everything". I read it all at one go and I was impressed by the strength that Chiara transmitted to me; for me Chiara was, is and will always be an example of a formidable life. Thank you Chiara, the feelings I had within me, made me cry last night, but this morning when I finished reading the book, the sadness was transformed into strength, positive energy. I hope I will get the chance to come to Sassello to visit you; you are special!
